A Copilot You Can Trust

Flight school is an incredible journey for students with sky-high ambitions—but can unfortunately come at a cost that's just as high. Skybound is in the business of partnering with flight schools to finance their students' journeys, providing them with a supporting updraft that helps countless careers go above and beyond.

We aren't just another big name looking to make a quick buck. We're a family focused on supporting the future of new pilots everywhere. The relationships we build up today, and careers we help lift off tomorrow, make us an invaluable resource for flight schools everywhere.

Our History

FMS Bank President/CEO John Sneed—a pilot himself—recognized an increasing need for new pilots to fill the shoes of the growing number of those retiring. Thus, Skybound took flight in 2012 to give flight school students a helpful solution to their financing needs.

Today, Skybound has proven to be a successful resource for students and flight schools across the country. We're proud to offer unparalleled customer service and state-of-the-art technology to improve the lives of every customer we serve.

Why Skybound?

- ✦ A flight school financing solution founded on relationships.
- ✦ Flexible repayment options.
- ✦ Financing with a human touch, unlike the rigid programs offered by big banks.
- ✦ An understanding of the needs of today's students.
- ✦ Proven financial support that raises retention and student success.

Helping Careers Take Flight

Historically, the students who enter our program have a higher level of success during their time in school. High-quality customer service, strong relationships, and convenient payment methods all set us far above the traditional student loan experience.
